

Homework o
By: Olive (Olivia) Shannon

A screenshot of a macOS terminal window. The title bar at the top shows three window control buttons (red, yellow, green) on the left, a home icon followed by the text "oliveshannon — bash — 80x24" in the center, and a small orange icon on the right. The terminal content shows the following commands and output:

```
148-100-177-228:~ oliveshannon$ java -version
java version "1.8.0_31"
Java(TM) SE Runtime Environment (build 1.8.0_31-b13)
Java HotSpot(TM) 64-Bit Server VM (build 25.31-b07, mixed mode)
148-100-177-228:~ oliveshannon$ javac -version
javac 1.8.0_31
148-100-177-228:~ oliveshannon$
```

The prompt "148-100-177-228:~ oliveshannon\$" is used throughout. The output of the first command is multi-lined. The second command's output is on a single line. A cursor is visible at the end of the final prompt.

<https://github.com/oliveshannon/sd1olive.git>

We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

...or create a new repository on the command line

```
echo "# sd1olive" >> README.md
git init
git add README.md
git commit -m "first commit"
git remote add origin https://github.com/oliveshannon/sd1olive.git
git push -u origin master
```

...or push an existing repository from the command line

```
git remote add origin https://github.com/oliveshannon/sd1olive.git
```
